3. MEMBERS PROPOSED. BY WHOM PROPOSED.

For President,

LORD BROUGHAM ..... THE COUNCIL.

For Vice-President,

THE EARL FORTESCUE ..... THE COUNCIL.

For Treasurer,

JOHN TAYLOR, Esq., F.R.S. ..... THE COUNCIL.

For Councillors:

EDWIN WILKINS FIELD, Esq. ..... THE COUNCIL.
THE RT. HON. SIR J. GRAHAM, Bart., M.P. (for re-election) THE COUNCIL.
JOHN REMINGTON MILLS, Esq. ..... THE COUNCIL.
JAMES W. MYLNE, Esq. ..... THE COUNCIL.
THE RIGHT HON. SIR EDWARD RYAN (for re-election) ... THE COUNCIL.
THE RIGHT HON. EDWARD STRUTT, M.P. (for re-election) THE COUNCIL.

For Auditor,

SAMUEL MORLEY, Esq. ..... THE COUNCIL.

THE REPORT of the Council was read by the Secretary.

The Report of the Auditors, containing the Statement of Receipt and Expenditure for the year 1850–1851, and other Financial Papers, *vide* pages 10, 11, and 12, were read.

On the motion of Thomas Gibson, Esq., seconded by Samuel Gale, Esq.,

RESOLVED UNANIMOUSLY,—That the Report be received, and that it be printed and circulated among the Proprietors.

The Return of the Scrutineers was presented to the Chairman, who declared the RESULT OF THE BALLOT to be as follows :—

For President .....LORD BROUGHAM.
For Vice-President .....THE EARL FORTESCUE.
For Treasurer .....JOHN TAYLOR, Esq.

For Councillors.

EDWIN WILKINS FIELD, Esq.
THE RIGHT HON. SIR JAMES R. G. GRAHAM, Bart., M.P.
JOHN REMINGTON MILLS, Esq.
JAMES W. MYLNE, Esq.
THE RIGHT HON. SIR EDWARD RYAN.
THE RIGHT HON. EDWARD STRUTT, M.P.

For Auditor, SAMUEL MORLEY, Esq.

On the motion of the Right Hon. William Hunter, Lord Mayor of London, seconded by Joseph Hume, Esq., M.P.,

RESOLVED UNANIMOUSLY,—That this Meeting highly appreciates the possession by the College of the Works in Sculpture by Flaxman, which constitute the Flaxman Gallery.

That the Meeting is of opinion that these works being treasures of Art, the contemplation of which has a tendency to refine and elevate the mind, are most appropriate embellishments to the Entrance Hall of this Institution, and rejoices that so suitable a place has been found for the deposit and preservation of such precious Relics.

That the thanks of the Members of University College, London, assembled at their Annual General Meeting this day, be tendered to Miss Maria Denman, the Sister-in-law and Executrix of our great Sculptor Flaxman, by whom these works have been generously presented to the College, for her very valuable gift.

That the Council of the College be requested to communicate this vote of thanks to Miss Denman.

On the motion of the Rev. Edward Tagart, seconded by Samuel Sharpe, Esq.,

RESOLVED UNANIMOUSLY,—That cordial thanks be given to H. C. Robinson, Esq., for the zeal and success with which he has carried out Miss Denman's wishes in the connection of Flaxman's works with University College.

James Heywood, Esq., M.P., proposed a motion as follows :—

That the word 'twenty' be substituted for 'thirty' in the Clause of the Bye-laws relating to the Quorum at a General Meeting.

Richard Martineau, Esq., seconded the motion. Discussion thereon.

The motion by leave of the Meeting withdrawn.

On the motion of John R. Quain, Esq., Fellow of the College, seconded by Frederick William Mackenzie, M.D., Fellow of the College,

Resolved,—That this Meeting is of opinion that the time has arrived for reconstituting the University of London, on the basis of the admission of the Graduates to a recognised position in the Corporate body.

That the Council be respectfully requested to transmit the above resolution to the Home Office, and Senate of the University.

JAMES R. G. GRAHAM, *Chairman.*

On the motion of Joseph Hume, Esq., M.P., seconded by J. R. Quain, Esq.,

RESOLVED UNANIMOUSLY,—That the hearty thanks of the Meeting be returned to Sir James R. G. Graham, for his attention to the business of the College on this and many other occasions, and for the kindness and urbanity with which he has discharged the duties of Chairman.

CHARLES C. ATKINSON, *Secretary.*

REPORT.

STUDENTS.

THE number of Pupils in the College during the Session 1850–51 was 747; namely, 443 Students and 304 boys in the Junior School. The Students were, of the Faculty of Medicine 200, 35 being new Students; of the Faculty of Arts and Laws 243, of whom 96 were new Students. The highest number of boys in the Junior School in any one term was 259. In the Patriot Fund Classes for Schoolmasters there were 57 Students. The Students of Analytical Chemistry in the Birkbeck Laboratory were 28. The attendants on the Birkbeck Summer Course of Chemistry, at a reduced fee for persons engaged in manufactures, were 3. The amount of Receipts from Students was 11,257*l.* 9*s.* 8*d.*, of which 3252*l.* 5*s.* was for the Medical Faculty, viz. for attendance on Classes, 2295*l.* 2*s.*; on Hospital Practice, 957*l.* 3*s.*: 3544*l.* 4*s.* 8*d.* was on account of the Faculty of Arts and Laws, and 4461*l.* for the Junior School. The share of Professors and Masters, exclusive of the annual augmentations to the Professors of Natural Philosophy and Comparative Anatomy, and of interest of the Patriot Fund to the Professors of the Schoolmasters' Classes, was 8150*l.* 15*s.* 10*d.*; the College portion amounted to 2149*l.* 10*s.* 10*d.* The sum of 957*l.* 3*s.*, received for Clinical Instruction at the Hospital, was paid to the Hospital Committee towards the support of the Charity.

The entries for the current Session, up to this period, are: Medical Students 161, of whom 42 are new Students; attendants on Hospital Practice 38; Students of the Faculty of Arts 176 (exclusive of 51 Schoolmasters), the new Students being 92. The number of boys in the Junior School in this term is 251.

The number of Students of the College who took Degrees at the University of London in the year 1851 was as follows:—M.A. 1 of 2, from 2 Colleges; LL.B. 4, of a total of 5 from 2 Colleges; B.M. 4 (all in First Division), of a total of 19 from 7 Schools; B.A. 24 (23 in the First Division), of a total of 49 from 21 Colleges. In all 33, of a total of 75 from 26 Institutions. Of Undergraduates in Medicine, at the First Examination for the Degree of Bachelor of Medicine, of a total of 27 from 8 Schools, 12 (of whom 10 in the First Division) were from University College. Two hundred and fourteen Students passed the Matriculation Examination; of these 40 proceeded from private tuition. Of the remaining 174 from 46 Schools, 33, including 2 from the Junior School, were from University College. The Honours obtained by Students of the College at the University Examinations were:—for the Degree of LL.B., the University Law Scholarship by Mr. Alfred Wills; Degree of B.M., the University Scholarship and Gold Medal in Physiology and Comparative Anatomy by Mr. J. Russell Reynolds; the University Scholarship and Gold Medal in Medicine, also by Mr. Reynolds; the Gold Medal and the

second place in Honours for his examination in Surgery by Mr. Henry Thompson; the Gold Medal and the second place in Honours for his examination in Medicine, also by Mr. Thompson. The Degree of B.A., the University Scholarship in Mathematics and Natural Philosophy by Mr. William Gurney; the University Scholarship in Classics by Mr. John C. Addyes Scott; the Prizes of Books for Chemistry and Animal Physiology were both obtained by Mr. William Roberts.

Of Undergraduates in Medicine at the First Examination for the Degree of B.M., Mr. Thomas Hillier obtained the Exhibition and Gold Medal for his examination in Anatomy and Physiology; Mr. J. Waldemar de Tunzelmann obtained the Gold Medal and the second place in Honours for his examination in Anatomy and Physiology; the Gold Medal and the second place in Honours for his examination in Materia Medica and Pharmaceutical Chemistry, and the Gold Medal and the first place in Honours for his examination in Structural and Physiological Botany. Mr. Roberts obtained the Exhibition and Gold Medal for his examination in Chemistry. At the Matriculation Examination, the Prize of Books for Chemistry was obtained by Mr. William Price Jones.

The credit of the College has thus been well sustained at the University Examinations; and referring to the University Calendar, the Council have the satisfaction of observing that from the year 1839, when Degrees were first conferred, to this time, all the Scholarships awarded in Law, in Mathematics and Natural Philosophy, and in Classics, to the numbers respectively of 8, 11 and 7, have been obtained by Students of this College; and that of the Medical Scholarships awarded during the same period, 27 in all, 12 were obtained by Students of the College, and that the remainder were divided among students from 7 other schools; of whom the greatest number belonging to any one school was 4.

The Andrews Scholarships of the College for 1851, for Proficiency in Latin, Greek, Mathematics, and Natural Philosophy, were awarded as follows:—The Scholarship of 100*l.* to Mr. John Charles Addyes Scott, and one of 50*l.* to Mr. John Power Hicks; but as the latter Scholarship was subject to the condition of the holder's continuing his studies at the College, and as Mr. Hicks had other views and did not renew his attendance on Classes, he has not enjoyed the full benefit of his success.

A second Scholarship of 50*l.* was offered, but not awarded; and one of 50*l.* in addition to those previously offered for competition in October next has been announced.

The Fellowes Clinical Medals were conferred as follows:—The Gold Medal for the Winter Term on Mr. William George Bacot of London; that for the Summer Term on Mr. Joseph Lister of Upton, Essex. The Longridge Prize for General Proficiency in Medicine and Surgery for the year 1850 was awarded to Mr. Thomas George Fitzgerald of London; that for the year 1851 to Mr. Joseph Lister of Upton.

The former Pupils of the Junior School who distinguished themselves in the College Examinations were:—Mr. Thomas Key, who obtained the Second Prize in the Senior Class of Greek; Mr. Henry Wills Southey, who obtained the First Prize in the Junior Class of Greek; Mr. Rogers Field, who obtained the Prize in the Senior Class of French; and Mr. Eustace De Leon, who obtained the Prize in the Senior Class of German.

PROFESSORSHIPS.

The following offices have become vacant since the last Annual Meeting: the Professorship of Geology, in consequence of the resignation of Mr. Ramsay on his being required by Her Majesty's Government, as holding an appointment in connection with the Geological Survey of Great Britain, to give Lectures on the same subject for the School of Mines and Science applied to the Arts at the Museum of Practical Geology. The Professorship of Machinery, in consequence of the resignation of Mr. Woodcroft; the Teachership of Spanish under Section xii. Clause 4 of the Bye-Laws, there having been no Class during several preceding years: the office of Lecturer on Dental Surgery and of Surgeon Dentist to the Hospital, in consequence of the decease of Mr. Durancé George; and that of Assistant Surgeon at the Hospital, by reason of the resignation of Mr. Cadge on his relinquishing practice in London. These offices are all still vacant. Those of Assistant Surgeon at the Hospital and Lecturer on Dental Surgery will probably soon be filled up. The applications and testimonials of Candidates are now under consideration.

LEGACIES AND DONATIONS.

In the month of April last the sum of 486*l.* 6*s.* 5*d.* was received as the produce of the Legacy of Chinese Books by Mr. Morrison, the son of Dr. Morrison, whose collection of Chinese Books is now in the Library. Subsequently the Board of Inland Revenue allowed the claim of the College to the return of the Legacy Duty, according to the Statute of 39 Geo. III. chap. 73, by which bodies corporate are exempted from Legacy Duty on Books, Pictures, Statues and other articles; and the total sum received was 540*l.* 17*s.* The circumstances under which the Legacy of Books became a pecuniary bequest are fully stated in the last Report.

On the 24th of October, and consequently after the period for closing the accounts which will be appended to this Report, one of the two surviving Annuitants under Mr. Brundrett's Will being dead, the Executors paid to the Council 214*l.* 14*s.* 2*d.*, the produce of the College Share (two thirds) of the sum in Consols set apart for securing the Annuity.

The Legacy of 100*l.* from Mr. Wilkins of Mackworth, mentioned in the last Report, has been duly received.

The Council at their Session on the 10th of January, received notice from Mr. John Dalrymple, Honorary Secretary to a Committee of Gentlemen who, upon the decease of the late Professor Liston, met to consider in what way they could honour the memory of that eminent Surgeon, that the Committee had resolved that four busts should be executed in marble, and a Gold Medal struck to be given as an Annual Prize in Surgery, to the Students of the Hospital attached to the College. Mr. Dalrymple further stated that the busts had been executed by Mr. Thomas Campbell, and were considered both as works of Art, and as a likeness to the deceased in every way admirable, and that the Committee had resolved that one of them should be presented to the Council, to be placed in such a position in the College as might seem to them most appropriate. A Bust in marble of Professor Liston has been accordingly presented to the College, and the Council are informed that the Committee have engaged Mr. Leonard Wyon to execute a die for the Medal.

The Contributions which have been made to the Collections of the College during the year, include an interesting and curious piece of machinery, now deposited among the Apparatus for illustrating the Lectures on Natural Philosophy and Astronomy, viz. the Orrery made by the celebrated self-taught Astronomer, James Ferguson. At his death it was purchased by the late Rev. George Walker, F.R.S., &c., President of the Literary and Philosophical Society of Manchester, who repaired it with his own hands, and it has been presented to the College by the son of that gentleman, Mr. George Walker of Port Louis, France, through his relative Sir George Cayley, Bart.

The Council take this opportunity of repeating their thanks to Mr. Walker and Sir George Cayley for the Donation, and for the interest which they take in the College as evinced by this gift.

FLAXMAN GALLERY.

The Committee for preserving the Works of Flaxman have continued to make progress in affixing them. The arrangement of the Sculptures in the Hall was completed last spring. His Royal Highness Prince Albert then honoured the College by a visit, for the purpose of inspecting them. He had previously patronised the undertaking and subscribed to the Fund. Since that time the Hall has been open to the Public, and numerous visitors have appeared to appreciate highly the merit of the works, and to approve of the manner in which they have been arranged. Miss M. Denman has made further additions to the Collection, and has employed much time, labour, and skill in arranging the smaller casts in the lobby on the south side of the Hall and in an adjacent room. The Council are informed by the Flaxman Gallery Committee that the subscriptions have increased from 500*l.* to 687*l.*, but that the expenses have equalled the receipts; that there is still a considerable number of works to be affixed, and that the remaining funds are insufficient for the completion of the undertaking: the exertions of the Members of the College are therefore requested in order that the Gallery may be rendered as comprehensive as possible.

On the closing of the Exhibition of the Industry of All Nations, the Marble Statue of Flaxman by the deceased artist Watson, as mentioned in last year's

Report, was presented to the College by the Subscribers to the Fund for defraying the expense of executing that Statue.

FINANCES.

The expenses of the Establishment, independent of those for which Special Funds are appropriated, amounted to 6736*l.* 15*s.* 7*d.* Of this, the sum of 2150*l.* was for Building and Fittings in completion of the improvements which had been in progress for several previous years, 150*l.* for augmentation allowance to the Professor of Natural Philosophy, 90*l.* as Interest for the Patriot Fund to the Professors of the Schoolmasters' Classes, and 135*l.* for Scholarships as Interest of the Gift of the late Mrs. Flaherty, leaving 4200*l.* for ordinary expenses; of which sum about 250*l.* was for the payment of debts of the previous year, and 150*l.* for a portion of triennial repairs, not chargeable to the year—reducing the total ordinary expense incurred for the Session, to about 3800*l.*, the usual average of a series of years. The Receipts were, for the College portion of payments by pupils, 2150*l.*, and from other sources 1100*l.*, making a total of 3250*l.* Among the other sources alluded to, was the balance for two years, amounting to 568*l.*, of Dividends of the Holme Fund remaining after payment of the charges on those Dividends, chiefly the Annual Stipends for Special Clinical Instruction, and for the Professor of Comparative Anatomy. This balance has been applied in defraying other expenses of the Medical Department.

Another of the sources referred to, yielding 640*l.*, consisted of Capital, namely, the Legacies of Mr. Morrison and Mr. Wilkins. The result is, that between the ordinary expenses and the total Receipts not subject to special appropriation, there was a deficiency of about 560*l.* To provide for this and for the extraordinary expenses above mentioned, amounting together to about 3000*l.*, the Council borrowed the sum of 3500*l.* They adopted this course on the recommendation of the Committee of their body, to whom, as mentioned at the conclusion of their last Report, the financial condition of the College and Hospital had been referred by them. That Committee after a very minute investigation had reported, that for several years the ordinary Expenditure, including augmentations to Professors, had exceeded the Receipts by about 800*l.* per annum, and that the excess of Expenditure over Income had much increased during the two years immediately preceding: that in 1850 it was above 2000*l.*, and it was calculated that for the then current year it would be about 1500*l.* The Committee having shown that, with the exception of the cost of the New Buildings and other improvements, by which the accommodations for teaching are rendered more complete, this deficiency arose from diminution of Receipts, and not from increase of Expenditure, and that economy had long prevailed, reported that without impairing the efficiency of the Establishment no material saving seemed practicable. The Council concurred in the conclusion of their Committee, that, regarding all circumstances, and particularly the reversionary interests of the College, and in the hope that the Finances might gradually improve, it was advisable to have recourse to a loan in order to continue the Establishment on its present footing.

HOSPITAL.

The Finances of the Hospital remain in much the same condition as at the period of the Council's last Report. The expenses of the year were below the actual Receipts, and the debt was somewhat diminished. The Annual Subscriptions have continued gradually increasing. A very important addition has lately been made to the list by the munificent contribution of 100*l.* per annum by Edward Lombe, Esq., of Melton Hall, Wymondham, Norfolk, now residing at Florence*. The Do-

---

* During the printing of the Report, the Council have received intelligence of the decease of Mr. Lombe, at Florence, on the 1st of March, at the age of 52. By his Will, dated the 30th of October last, which he had transmitted for deposit with the Secretary to the College, he left all his personal estate, which he could by law bequeath for charitable purposes, subject to his wife's life interest, to University College Hospital, and appointed the Baron de Goldsmid, Treasurer to the Hospital, and Mr. Atkinson, Secretary to the College, his Executors. The Will has been proved in the Prerogative Court of Canterbury, and the personal estate in England estimated at about £26,000.

nations, including a generous gift of 200 guineas from the Lord Mayor and Commonalty of the City of London, 50*l.* from the Grocers' Company, and the produce of the Collection at a Public Dinner (the Governor of the Bank, Mr. Thompson Hankey, jun., presiding), which yielded 1112*l.*, amounted to 1776*l.*; and there was received for Legacies the sum of 1484*l.*—viz. for that of Mr. Cuthbert Morris, 276*l.* in settlement of a Legacy of 500*l.*, the assets of the Testator having proved insufficient for discharge of his Bequests; 360*l.* for present instead of future payment of a reversionary Legacy of 500*l.* of Mr. Robert Cullen of Malden, Essex, who died in 1842; 440*l.* the Legacy of the late Miss Petch; 107*l.* the Hospital share of the sum in Consols set apart for securing the payment to an annuitant (deceased) under Mr. Brundrett's Will, and 300*l.* Legacy, free of duty, by Mrs. Bentham. Notice has also been received of a Legacy of 210*l.*, free of duty, by Mr. Helling. The sums received on account of the Legacies of Mr. Cullen and Mrs. Bentham have been invested in Consols for the Hospital in the name of the College.

The Committee, to whom the financial condition of the College and Hospital was referred, as before stated, carefully considered the circumstances and prospects of the Hospital; they reported that the receipts during seventeen years had averaged upwards of 6000*l.* per annum, and the expenditure, under less liberal arrangement than had till then prevailed, might be kept below 5000*l.*: that in the difficult circumstances of the three years ending December last, the receipts had been equal to the expenditure; that the actual debt at the time was about 2000*l.*, while the property of the Hospital, consisting of an investment of 500*l.* Consols, and secured reversionary interests, after allowing for deduction of duty, exclusive of two doubtful legacies, amounted to 1450*l.* [the Consols have been since increased to 1214*l.*]; that the Building and Furniture had cost 21,000*l.*, exclusive of the Land, the property of the College in fee; and they recommended that under the difficulty arising from the disproportion between the certain ordinary income and the expenditure, the admission of patients should be limited to the number which there shall from time to time appear a reasonable prospect of having the means to maintain.

SPECIAL GENERAL MEETING

On Tuesday, 5th August, 1851,

THE EARL FORTESCUE,

Vice-President of the College, in the Chair.

Alterations in Sections XI., XIII., and XIV. of the Bye-laws, proposed by the Council of the College, were considered, and passed in the form and terms in which they had been previously submitted to the Members of the College by the circulation of printed copies.

James Heywood, Esq., M.P., gave notice that at the next Annual General Meeting he should move,—That the word 'twenty' be substituted for 'thirty' in the Clause of the Bye-laws relating to the Quorum at a General Meeting.
